

Panoramic

Technical Information Sheet – Panoramic

Panoramic Description

The Panoramic is a wall-mounted unit. The Panoramic is secured to walls using either Rawl bolts or clamps.

The Static Panoramic gives a linear spray of between 20 and 30 metres with a 10° diameter. The Panoramic can also be fitted with (optional extra) an oscillation kit, which increases the spray coverage by 120°.

Main Uses

The Panoramic can be located internally or externally. The unit is both portable and adaptable for odour and dust suppression. The Panoramic is used with AiroNaut™ odour control agent or ProSorb Atmospheric cleanser.

Applications

- Transfer Stations
- Material Recovery Facilities
- Composting Plants
- Sewage Treatment Works
- Quarries
- Foundries
- Any industry producing dust/odour

Main Advantages

- Never blocks - no need for filters
- Uses less water than nozzle systems
- Little or no maintenance
- Greater coverage
- Portable
- Quickly installed
- Uniformed droplets reducing the risks from Legionella

Awards & Recognition

- DTI Innovation Award
- North East Business Award
- ISO 9001
- CE Conformity Directive
- Patents
- Trademarks

Client Base Includes:
